## CAMELLIA CUTTINGS AND SCIONS PRICE LIST AND ORDER FORM 325 SELECTED VARIETIES

Here are new low prices of Camellia Cuttings and Scions, ranging from 1½¢ to 24¢ each. We will continue to lower the price of cuttings of higher bracket varieties as we develop sufficient stock of a variety to enable us to do so. It takes several years to build up any appreciable number of cuttings of a variety. You will notice that we have lowered the bracket (or group or class) of many varieties this year. You will also note that we have added a number of new varieties to the list. Use this convenient form for making out your order. Keep a copy of your order for your record. We will send you two more order forms for future use when we ship your cuttings. All Camellia Cuttings are shipped packed in damp spagnum moss in corrugated cartons, which insures safe arrival. All prices are net, terms are cash with order, and we pay all the packing and transportation costs to you on all orders for \$10.00 or more. On orders for less than \$10.00, seventy-five cents is added to cover part of the packing and transportation costs. For those customers who want to order just a few cuttings of a variety we have made it possible for them to do so at these low prices by adding a small VARIETY SERVICE CHARGE to cover part of the extra cost of rendering them this service. The INSTRUCTIONS FOR ORDERING on page 4 explain how this is done. Please re-read the INSTRUCTIONS FOR ORDERING just before filling out your order. We thank you for the opportunity of again serving you.

In reply to the question frequently asked us as to **when to put in Camellia Cuttings**, we advise that they should be put in after each of the three growths is sufficiently mature, and before new growth has started again. We put in Camellia Cuttings to root, from the latter part of May to the early part of the following March. From June to the following February is perhaps the safest period for putting in Camellia Cuttings. Each year presents a separate problem as to time to start and stop. How much before the 4th of July the first growth cuttings of any specified variety can be put in depends upon how early the spring is, and how soon the first growth matures. How late after the first of February the last (third) growth cuttings can be put in depends upon how long the cool winter weather holds on and delays the swelling of the buds. The buds of some varieties of course do not start to swell as soon as some of the others. By the latter part of the summer, and in the fall, there is much overlapping, when the cuttings from the current growth of one variety are ready but the cuttings may not be ready on another variety. Many people do not yet know that it is just as satisfactory to root cuttings from August to February from the second and third growths, as it is to root cuttings from the first growth, in June and July.

We sell only those cuttings which are in a state of maturity that we consider right for use in our own propagating beds. We will eliminate from your order the cuttings of the varieties which we consider are not in shape to cut at the time your order is received, and request that you indicate on the ORDER FORM on the back page whether you wish us to ship them later when available, or if you wish substitutions to be made (and if so what substitutions), or if you wish a refund for the varieties not currently available.

We can not only supply you with Camellia Cuttings, but also with Rooted Camellia Cuttings, Camellia Liners, Lath Grown Camellias, and big Field Grown Camellias from three to ten feet tall, of which we have over 100 varieties from 10 to 25 years old. We can supply you with Azaleas, and Shrubs in general. Please write us what you would like to have. It will be a pleasure to serve you.

All claims must be made upon receipt of the cuttings. The terms and conditions of sale are the same as contained in our current price list.

## Class D 2¼¢ Ea.

Mixed cuttings of vigorous, healthy varieties suitable for use in landscaping or as understock. (400 minimum)

\_\_\_\_\_ @ 2¼¢ each \$ \_\_\_\_\_

(Number) (Amount)

## Special Offer

Class D cuttings in lots of 5000 or more, @ 1½¢ each, at the nursery, or shipped transportation charges COLLECT.

Put down on this list (to the left of the name of the variety) the number of cuttings desired of each variety. Add up these numbers in each column and put down the total number of cuttings of each Group or Class in the space provided at the foot of each list of varieties. Multiply each column total by the price per cutting shown and put down the Amount in the space provided.

For those customers who want to order less than the minimum listed for a Group or Class, we have made it possible for them to do so at these low prices by adding a small VARIETY SERVICE CHARGE to cover part of the extra cost of rendering them this service. If you in any case are ordering less PER VARIETY than the minimum listed for a Group or Class, put down the number of varieties in the space provided, where less than the minimum number has been ordered, and then figure the VARIETY SERVICE CHARGE at 10¢ per VARIETY (not 10¢ per cutting) and put the Amount of the VARIETY SERVICE CHARGE in the space provided.

Transfer the total Amount at the foot of each Group or Class to the COST SUMMARY below. If the total order is for more than \$10 we pay all the packing and usual transportation costs (Railway Express or Parcel Post). If the total order is for less than \$10 add 75¢ for part of the packing and transportation costs, and you have the GRAND TOTAL, which is the amount to remit. Terms cash with order (except where credit ratings have been established with us).

## ORDER FORM

If you wish your cuttings to come by air please so direct us and we will send them transportation charges collect by Air Express, Air Parcel Post, or Air Freight, and then mail you a check for a refund of what the transportation cost would have been for that weight of cuttings if they had been sent by Railway Express or Parcel Post. (In the case of Air Parcel Post, it may be more convenient for both you and us, for us to put on the amount of parcel post postage, and then only make out a C.O.D. slip for the additional postage the post office required us to put on to send the package by air—plus of course the C.O.D. fee.) Where the distance is great, or the weather looks to be bad for them, we will follow this practice even without instructions, whenever our judgment tells us that it is to your best interest to do so.

(Date)

ABBOT'S SUNNY KNOLL NURSERY  
Rt. 2, Box 182,  
Mobile, Alabama

Please ship the Camellia Cuttings as indicated. I enclose \$ \_\_\_\_\_, which I figured in the COST SUMMARY as my total cost, after reading the Instructions For Ordering.

Should any of the varieties I have ordered be not now available, please

- ( ) Substitute other varieties in the same Group or Class.
- ( ) Substitute other varieties of similar color in the same Group or Class.
- ( ) Substitute other varieties of similar color in the same or a lower Group or Class, and refund me any difference.
- ( ) Substitute the varieties which I have marked "2nd" choice.
- ( ) Send what is available now and send later those not now available.
- ( ) Send me a refund for varieties not currently available.

The address to which I wish the cuttings sent is:
